

LIST of ERDF PROJECTS IN THE LONDON LEP AREA

as of 31 October 2017

European Union
European Regional
Development Fund

Priority Axis	Organisation	Project name	Description	Total eligible costs	EU Contribution	Contact details
1	Newable	INNOVATE 2 SUCCEED	The project supports SMEs to enhance their innovation management capability, resulting in increased effectiveness in generating and commercially exploiting their ideas. This activity forms part of a programme being delivered across several Local Enterprise Partnership areas as part of Innovate UK's agenda to increase innovation management capacity in small businesses.	£1,000,000	£500,000	Monica.Montero@newable.co.uk
1	London SouthBank University	SIMULATION FOR DIGITAL HEALTH	The project supports health-sector SMEs to develop novel products, processes or services by giving them access to state of the art facilities to test their ideas in a realistic simulated environment. It will enable SMEs to grow and become more competitive.	£1,299,030	£649,515	daisy.chatterton@lsbu.ac.uk
1	King's College London	COLLABORATE TO INNOVATE	The project supports life-science businesses with research and product development needs that seek collaboration with academics and researchers to develop their ideas. Businesses are matched with experts from leading London universities. It will encourage business growth and new jobs in the capital.	£2,093,550	£1,046,775	riamkanso@medcityhq.com
1	King's College London	GENERATING VIRAL VECTORS FOR GENE THERAPY	The project will set up a pilot gene therapy/Adeno-associated Virus manufacturing facility to deliver effective vectors. To do this it requires construction of a laboratory building which permits vector manufacture, under ultra clean conditions.	£4,132,000	£2,066,000	simon.howell@kcl.ac.uk
1	University of West London	WEST FOOD INNOVATION LAB	The project supports London SMEs in the food & beverage sector to engage with research and innovation. It supports SMEs to create new markets by developing new product lines and improving existing products to meet new market demands. It will create jobs and support SMEs to grow and become more competitive.	£1,478,320	£739,160	Vasileios.Lepidas@uwl.ac.uk
1	Brunel University	BRUNEL CO-INNOVATE JOURNEYS	The project connects SMEs to researchers at Brunel to identify, design, develop and test products, services or systems. It expands existing smart specialism strengths in advanced manufacturing and food & packaging. It seeks to tap into emerging opportunities for innovation in the London economy.	£2,897,474	£1,448,737	Paul.Davies@brunel.ac.uk

1	Brunel University	BRIDGING THE GAP PROJECT	The project seeks to increase the quality of graduate start-ups in London by providing a support ecosystem to enable entrepreneurs to use the university's knowledge, expertise and networks to develop, launch and operate companies. It will create jobs and support the businesses to grow and become more competitive.	£1,043,555	£521,777	Paul.Davies@brunel.ac.uk
1	Health Innovation Network, Guys and St Thomas' NHS Foundation Trust	THE LONDON DIGITAL HEALTH ACCELERATOR PROGRAMME	The project supports start-ups to grow and capitalise on London's world-class research, medical technology, and health innovation resources. The project provides access to clinical expert mentors, NHS managers and technologists and, through its networks, to universities, hospitals and businesses.	£3,389,506	£1,694,753	'anna.king1@nhs.net'
1	University College London	EDUCATIONAL TECHNOLOGY EXCHANGE (EDUCATE)	The project will provide a physical and virtual co-working space for Higher Education researchers dedicated to education-sector SMEs. Through this collaboration it will translate research investment into new and better educational technology and stimulate demand for educational products thereby supporting SMEs to grow and become more competitive.	£4,500,000	£2,250,000	'alastair.moore@ucl.ac.uk'
1	Central Research Laboratory (Hayes) Ltd	CENTRAL RESEARCH LAB	The project will enable provision of workspace, rapid prototyping equipment and mentoring to new and growing businesses that design and make innovative physical products. It will create jobs and support SMEs to grow and become more competitive.	£1,635,368	£817,684	su@centralresearchlaboratory.com
1	The Royal Academy of Engineering	LONDON INNOVATION FELLOWSHIPS for ENGINEERS	The project will support entrepreneurial engineers to commercialise their R&D outputs through new start-up/spin-out businesses. It will provide entrepreneurs with opportunities to accelerate their products and services to market and develop associated businesses. Focused on the digital, science and technology sectors, the project seeks to create new and successful enterprises.	£2,676,236	£1,338,118	Ana.Avaliani@raeng.org.uk
1	Capital Enterprise	CAP-AI KNOWLEDGE EXCHANGE PARTNERSHIPS in ARTIFICIAL INTELLIGENCE	The project will help artificial intelligence and machine learning SMEs to access the technical expertise, data and computation power, knowledge and innovation they need to survive and grow.	£3,987,832	£1,993,916	alison@capitalenterprise.org

2	Westminster City Council	CONNECT WESTMINSTER	This project will target an area of London which has one of the lowest percentages of affordable superfast broadband availability out of any parliamentary constituency in the UK. The project will deliver a demand-side voucher scheme to support SMEs to get connected to super and ultrafast broadband. As a result, businesses will become connected to super or ultrafast broadband.	£2,800,064	£1,400,032	dwilkins@westminster.gov.uk
3	The British Library	INNOVATING FOR GROWTH - phase 2	The project helps new and existing entrepreneurs on their personal journey from the first spark of inspiration to successfully launching and developing a business. It provides access to the largest collection of business and intellectual property information in the UK for the SMEs. The aim is to achieve increased growth and competitiveness for each business.	£2,664,840	£1,332,420	Vanessa.Perez-Sanchez@bl.uk
3	London & Partners	GO TO GROW	The project aims to improve London's competitiveness by increasing SMEs' exports; deliver a Mayoral-led campaign to highlight the benefits of exporting to London SMEs; arrange trade missions for SMEs. It will create new jobs and encourage business growth in the capital.	£4,898,518	£2,449,259	sfrench@londonandpartners.com
3	London & Partners	THE LONDON GROWTH NETWORK	As London's official promotional organisation, London and Partners' project will attract foreign-owned SMEs to London; increase the growth of foreign-owned SMEs across London; enhance the productivity of foreign and London-owned SMEs by supporting collaboration with larger corporates, and enable access to international supply chains. It seeks to create new jobs and encourage business growth.	£6,141,904	£3,070,952	bmacadie@londonandpartners.com
3	British Fashion Council	COMMERCIALISING CREATIVE FASHION BUSINESSES	The project supports fashion design businesses to grow and become more competitive. Businesses benefit from a programme which includes support specialist to the fashion industry. It provides opportunities to promote designers' products at seasonal selling events including London Fashion Week, and trade missions to showcase collections to domestic and international buyers. Businesses will grow, become sustainable, and boost the fashion sector in London.	£11,003,500	£5,501,750	Judith.Rosser-Davies@britishfashioncouncil.com
3	Capital Enterprise	CAPITAL ACCELERATE & SCALE TECH SUPERSTARS	The project expands the provision of London's accelerator programmes to generate more innovative tech and tech-focused fast growth companies. It provides support to help them rapidly scale by providing expertise to overcome technical challenges. It will enable London to create and nurture potential world-beating tech companies that collectively will raise private investment and create new high value jobs.	£7,357,904	£3,678,952	nathan@capitalenterprise.org
3	East London Small Business Centre	ENTERPRISE FOR EVERYONE	The project supports clients with ambitions and aspirations to start up a business, and work with SMEs during their early stages, including social enterprises and entrepreneurs wishing to set up social enterprises. It will create jobs and support SMEs to grow and become more competitive.	£1,267,098	£633,549	'faras@smallbusinesscentre.org.uk'

3	Newable	GLOBAL GROWTH	The project aims to increase the uptake of international business support among London SMEs, helping them to mitigate costs and risks in unfamiliar cultural and regulatory environments. It will create new jobs and encourage business growth in the capital.	£7,000,000	£3,500,000	Monica.Montero@newable.co.uk
3	Newham College of Further Education	BUILDING LEGACIES	The project targets SMEs, predominantly in the construction, digital/creative and care-related sectors, to support them to become fit to supply by advising on procurement and supply-chain requirements. It will create jobs and support SMEs to grow and become more competitive.	£1,620,000	£810,000	Sian.Smith@newham.ac.uk
3	Newham College of Further Education	ENTERPRISE STEPS	The project will engage pre-trade and early stage SMEs in London in areas of low enterprise activity and amongst under-represented groups to create new enterprises and help existing enterprises survive, prosper and grow.	£1,254,000	£627,000	Sian.Smith@newham.ac.uk
3	SPACE (Art Services Grants Ltd)	LONDON CREATIVE NETWORK	The project aims to increase the growth capacity of SMEs in the creative sector in London (visual arts, design, craft and photography) by developing their capacity to grow and increase their economic performance. An aim is to lower business failure rates and increase the employment potential of the sector.	£2,000,000	£1,000,000	anna@spacestudios.org.uk
3	London Waste and Recycling Board	ADVANCE LONDON	The project supports the scale-up of existing circular economy businesses, or transitioning existing businesses, to more circular models. It offers business support, addressing the key market failures encountered by SMEs seeking to increase growth and deliver resource efficient outcomes. A business club forum provides a peer-to-peer network of support. The project supports companies to improve their productivity through resource efficiency, developing capacity and creating jobs.	£1,257,872	£628,936	katie.lindsay@advancelondon.org
3	Virgin Start Up Limited	READY,STEADY,GROW WITH VIRGIN START UP	The project develops growth potential in start-up businesses in London, particularly in areas with low levels of enterprise activity and amongst under-represented groups. It seeks to enhance the culture of entrepreneurship in London, create jobs and encourage business growth.	£2,538,884	£1,269,442	ian.mason@virginstartup.org

3	London Training and Employment Network	INSPIRING ENTERPRISE AND GROWTH	The project equips potential entrepreneurs and fledgling SME and social enterprises in London with skills and competences to become more enterprising, start up new businesses and to ensure their sustainability. It targets BAME and other under-represented groups (e.g. women, people with disability or health conditions) in geographically disadvantaged parts of London.	£2,715,000	£1,357,500	Toyin@lten.org.uk
3	Enterprise Enfield Agency	INSPIRING WOMEN	The project provides business mentoring support, managed work space to support women, including those from BAME backgrounds and disabled women, to overcome barriers for either starting a business or sustaining an early stage business, including social enterprises. The project aims to support the creation of sustainable business start-ups, leading to growth in jobs and the economy.	£1,001,748	£500,874	djohnson@enterprisenfield.org
3	University of the Arts London	FASHION & TECHNOLOGY EMERGING FUTURES	The project will promote collaborations between fashion and tech SMEs in London; to capitalise on the fashion and tech eco-system emerging in the capital, to drive growth through promoting cross sector collaboration and develop innovative products and services (e.g. new fashion and lifestyle product innovation, digital marketing and retail solutions, digital supply chain tools).	£5,325,000	£2,662,000	k.smith@fashion.arts.ac.uk
3	The Trampery Foundation Ltd	LEGACY FOR GROWTH	The project will give early stage and startup creative and technology companies incubation facilities, and support from mentoring experts and peers running enterprises at more advanced stages of development. The project will provide access to a new fabrication workshop and grow-on facilities. The project will accelerate business growth in the Hackney Wick community and seeks to build a talent pool of peer entrepreneurs which successful clients can join.	£4,533,600	£2,666,800	elad@thetrampery.com
3	LB Lewisham	THE DEK GROWTH PROGRAMME	The project will deliver a programme of business support to meet the needs of high-growth potential SMEs in creative/digital/business services/social enterprise sectors. Businesses across south-east and east London will benefit from academic expertise, leading to SME growth and job creation.	£2,003,249	£1,001,624	Mac.Wenham@lewisham.gov.uk
4	Greater London Authority	RE:FIT	This non-domestic public buildings project comprises: end to end support for public sector organisations (PSOs) to enable retrofit projects to be identified and successfully implemented; and a framework of approved suppliers from which PSOs can appoint an organisation to deliver retrofit projects. The project will generate and accelerate retrofit activity, thereby achieving significant reductions in energy demand and carbon emissions, generating cost savings to the public sector and improving London's infrastructure.	£4,191,816	£2,095,908	Sylvia.Baron@london.gov.uk

4	Greater London Authority	BETTER FUTURES	The project will provide managed co-working space and innovation support to improve the success rate and speed of new low-carbon enterprises in London seeking to achieve growth. It will bring technical and business expertise to help low-carbon enterprises to optimise prototypes for the market and develop their business for growth investment. It will deliver CO2 reductions and job growth.	£1,647,044	£823,522	BetterFutures@london.gov.uk
4	Greater London Authority	DECENTRALISED ENERGY ENABLING PROJECT	The project provides public sector intervention to help realise larger-scale decentralised energy (DE) projects in London that the market is failing to deliver. It will procure and direct technical, commercial, financial support to help SMEs bring into operation schemes that deliver significant CO2 reductions at market-competitive prices. The project will deliver capital investment, create jobs and reduce carbon emissions.	£3,500,000	£1,750,000	Alex.Hobley@london.gov.uk
4	London SouthBank University	GREENTECH ACCESS TO INNOVATION	The project empowers SMEs to develop and commercialise innovative low carbon technologies rapidly and at low cost and low risk to the business. It does this by offering a combination of advanced equipment and testing facilities, specialised technical expertise and business skills and networking opportunities in the low carbon and tech sectors. It will reduce CO2 emissions and support SMEs to grow.	£1,285,520	£642,760	daisy.chatterton@lsbu.ac.uk
9	Greater London Authority	ERDF TECHNICAL ASSISTANCE	The project will support the Greater London Authority (GLA) as an Intermediate Body for the ERDF 2014-20 programme. It will enable the European Programmes Management Unit (EPMU) at the GLA to implement and manage ERDF, on behalf of the Managing Authority, the Department for Communities & Local Government.	£2,834,256	£1,417,129	Sian.Treen@london.gov.uk
