## LIST of ERDF PROJECTS IN THE LONDON LEP AREA

updated 20 March 2018

| Priority Axis | Organisation                 | Project name                         | Description  | Total eligible costs | EU Contribution | Contact details  |
|---------------|------------------------------|--------------------------------------|--|----------------------|-----------------|--|
| 1             | Newable                      | <b>INNOVATE 2 SUCCEED</b>            | The project supports SMEs to enhance their innovation management capability, resulting in increased effectiveness in generating and commercially exploiting their ideas. This activity forms part of a programme being delivered across several Local Enterprise Partnership areas as part of Innovate UK's agenda to increase innovation management capacity in small businesses. | £1,000,000           | £500,000        | <a href="mailto:Monica.Montero@newable.co.uk">Monica.Montero@newable.co.uk</a> |
| 1             | London South Bank University | <b>SIMULATION FOR DIGITAL HEALTH</b> | The project supports health-sector SMEs to develop novel products, processes or services by giving them access to state of the art facilities to test their ideas in a realistic simulated environment. It will enable SMEs to grow and become more competitive.   | £1,299,030           | £649,515        | <a href="mailto:daisy.chatterton@lsbu.ac.uk">daisy.chatterton@lsbu.ac.uk</a>   |

|          |                                  |  |  |            |            |  |
|----------|----------------------------------|--|--|------------|------------|--|
| <b>1</b> | <b>King's College London</b>     | <b>COLLABORATE TO INNOVATE</b>         | The project supports life-science businesses with research and product development needs that seek collaboration with academics and researchers to develop their ideas. Businesses are matched with experts from leading London universities. It will encourage business growth and new jobs in the capital.               | £2,093,550 | £1,046,775 | <a href="mailto:riamkanso@medcityhq.com">riamkanso@medcityhq.com</a>         |
| <b>1</b> | <b>University of West London</b> | <b>WEST LONDON FOOD INNOVATION LAB</b> | The project supports London SMEs in the food & beverage sector to engage with research and innovation. It supports SMEs to create new markets by developing new product lines and improving existing products to meet new market demands. It will create jobs and support SMEs to grow and become more competitive.        | £1,478,320 | £739,160   | <a href="mailto:Vasileios.Lepidas@uwl.ac.uk">Vasileios.Lepidas@uwl.ac.uk</a> |
| <b>1</b> | <b>Brunel University</b>         | <b>BRUNEL CO-INNOVATE JOURNEYS</b>     | The project connects SMEs to researchers at Brunel to identify, design, develop and test products, services or systems. It expands existing smart specialism strengths in advanced manufacturing and food & packaging. It seeks to tap into emerging opportunities for innovation in the London economy.                   | £2,897,474 | £1,448,737 | <a href="mailto:Paul.Davies@brunel.ac.uk">Paul.Davies@brunel.ac.uk</a>       |
| <b>1</b> | <b>Brunel University</b>         | <b>BRIDGING THE GAP PROJECT</b>        | The project seeks to increase the quality of graduate start-ups in London by providing a support ecosystem to enable entrepreneurs to use the university's knowledge, expertise and networks to develop, launch and operate companies. It will create jobs and support the businesses to grow and become more competitive. | £1,043,555 | £521,777   | <a href="mailto:Paul.Davies@brunel.ac.uk">Paul.Davies@brunel.ac.uk</a>       |

|   |  |  |  |            |            |  |
|---|--|--|--|------------|------------|--|
| 1 | <b>Health Innovation Network; Guys and St Thomas' NHS Foundation Trust</b> | <b>THE LONDON DIGITAL HEALTH ACCELERATOR PROGRAMME</b> | The project supports start-ups to grow and capitalise on London's world-class research, medical technology, and health innovation resources. The project provides access to clinical expert mentors, NHS managers and technologists and, through its networks, to universities, hospitals and businesses.  | £3,389,506 | £1,694,753 | 'anna.king1@nhs.net'   |
| 1 | <b>University College London</b>   | <b>EDUCATIONAL TECHNOLOGY EXCHANGE (EDUCATE)</b>       | The project will provide a physical and virtual co-working space for Higher Education researchers dedicated to education-sector SMEs. Through this collaboration it will translate research investment into new and better educational technology and stimulate demand for educational products thereby supporting SMEs to grow and become more competitive. | £4,500,000 | £2,250,000 | 'alastair.moore@ucl.ac.uk'   |
| 1 | <b>Central Research Laboratory (Hayes) Ltd</b>                             | <b>CENTRAL RESEARCH LAB</b>                            | The project will enable provision of workspace, rapid prototyping equipment and mentoring to new and growing businesses that design and make innovative physical products. It will create jobs and support SMEs to grow and become more competitive.   | £1,635,368 | £817,684   | <a href="mailto:su@centralresearchlaboratory.com">su@centralresearchlaboratory.com</a> |

|          |  |  |   |            |            |  |
|----------|--|--|---|------------|------------|--|
| <b>1</b> | <b>Capital Enterprise</b>              | <b>CAP-AI KNOWLEDGE EXCHANGE PARTNERSHIPS in ARTIFICIAL INTELLIGENCE</b> | The project will help artificial intelligence and machine learning SMEs to access the technical expertise, data and computation power, knowledge and innovation they need to survive and grow.  | £3,987,832 | £1,993,916 | <a href="mailto:alison@capitalenterprise.org">alison@capitalenterprise.org</a> |
| <b>1</b> | <b>London South Bank University</b>    | <b>London Agri Food Innovation Clinic</b>                                | The project will support London Agri-Food SMEs to invest on research and development by offering an innovation support programme and product development that will allow them to develop innovative products, processes and services. | £1,001,660 | £500,830   | <a href="mailto:daisy.chatterton@lsbu.ac.uk">daisy.chatterton@lsbu.ac.uk</a>   |
| <b>1</b> | <b>Queen Mary University of London</b> | <b>Cardiovascular Devices Hub</b>  | The project will create a one-stop Cardiovascular (CV) Device Innovation Centre "CVDhub" to engage CV businesses through bespoke innovation support and broker collaborations with London's academic/scientific knowledge base.       | £5,886,496 | £2,943,248 | <a href="mailto:principal@qmul.ac.uk">principal@qmul.ac.uk</a>                 |

|          |                                 |  |  |            |            |  |
|----------|---------------------------------|--|--|------------|------------|--|
| <b>2</b> | <b>Westminster City Council</b> | <b>CONNECT WESTMINSTER</b>             | This project will target an area of London which has one of the lowest percentages of affordable superfast broadband availability out of any parliamentary constituency in the UK. The project will deliver a demand-side voucher scheme to support SMEs to get connected to super and ultrafast broadband. As a result, businesses will become connected to super or ultrafast broadband. | £2,800,064 | £1,400,032 | <a href="mailto:dwilkins@westminster.gov.uk">dwilkins@westminster.gov.uk</a>       |
| <b>3</b> | <b>British Library</b>          | <b>INNOVATING FOR GROWTH - phase 2</b> | The project helps new and existing entrepreneurs on their personal journey from the first spark of inspiration to successfully launching and developing a business. It provides access to the largest collection of business and intellectual property information in the UK for the SMEs. The aim is to achieve increased growth and competitiveness for each business.                   | £2,664,840 | £1,332,420 | <a href="mailto:Vanessa.Perez-Sanchez@bl.uk">Vanessa.Perez-Sanchez@bl.uk</a>       |
| <b>3</b> | <b>London &amp; Partners</b>    | <b>GO TO GROW</b>                      | The project aims to improve London's competitiveness by increasing SMEs' exports; deliver a Mayoral-led campaign to highlight the benefits of exporting to London SMEs; arrange trade missions for SMEs. It will create new jobs and encourage business growth in the capital.   | £4,898,518 | £2,449,259 | <a href="mailto:sfrench@londonandpartners.com">sfrench@londonandpartners.com</a>   |
| <b>3</b> | <b>London &amp; Partners</b>    | <b>THE LONDON GROWTH NETWORK</b>       | As London's official promotional organisation, London and Partners' project will attract foreign-owned SMEs to London; increase the growth of foreign-owned SMEs across London; enhance the productivity of foreign and London-owned SMEs by supporting collaboration with larger corporates, and enable access to international supply chains. It seeks to                                | £6,141,904 | £3,070,952 | <a href="mailto:bmacadie@londonandpartners.com">bmacadie@londonandpartners.com</a> |

|   |                                |   |  |             |            |  |
|---|--------------------------------|---|--|-------------|------------|--|
|   |                                |   | create new jobs and encourage business growth.   |             |            |  |
| 3 | <b>British Fashion Council</b> | <b>COMMERCIALISING CREATIVE FASHION BUSINESSES</b>    | The project supports fashion design businesses to grow and become more competitive. Businesses benefit from a programme which includes support specialist to the fashion industry. It provides opportunities to promote designers' products at seasonal selling events including London Fashion Week, and trade missions to showcase collections to domestic and international buyers. Businesses will grow, become sustainable, and boost the fashion sector in London. | £11,003,500 | £5,501,750 | <a href="mailto:Judith.Rosser-Davies@britishfashioncouncil.com">Judith.Rosser-Davies@britishfashioncouncil.com</a> |
| 3 | <b>Capital Enterprise</b>      | <b>CAPITAL ACCELERATE &amp; SCALE TECH SUPERSTARS</b> | The project expands the provision of London's accelerator programmes to generate more innovative tech and tech-focused fast growth companies. It provides support to help them rapidly scale by providing expertise to overcome technical challenges. It will enable London to create and nurture potential world-beating tech companies that collectively will raise private investment and create new high value jobs.   | £7,357,904  | £3,678,952 | <a href="mailto:nathan@capitalenterprise.org">nathan@capitalenterprise.org</a>                                     |

|   |                                     |                         |  |            |            |  |
|---|-------------------------------------|-------------------------|--|------------|------------|--|
| 3 | East London Small Business Centre   | ENTERPRISE FOR EVERYONE | The project supports clients with ambitions and aspirations to start up a business, and work with SMEs during their early stages, including social enterprises and entrepreneurs wishing to set up social enterprises. It will create jobs and support SMEs to grow and become more competitive. | £1,267,098 | £633,549   | <a href="mailto:faras@smallbusinesscentre.org.uk">faras@smallbusinesscentre.org.uk</a> |
| 3 | Newable                             | GLOBAL GROWTH           | The project aims to increase the uptake of international business support among London SMEs, helping them to mitigate costs and risks in unfamiliar cultural and regulatory environments. It will create new jobs and encourage business growth in the capital.                                  | £7,000,000 | £3,500,000 | <a href="mailto:Monica.Montero@newable.co.uk">Monica.Montero@newable.co.uk</a>         |
| 3 | Newham College of Further Education | BUILDING LEGACIES       | The project targets SMEs, predominantly in the construction, digital/creative and care-related sectors, to support them to become fit to supply by advising on procurement and supply-chain requirements. It will create jobs and support SMEs to grow and become more competitive.              | £1,620,000 | £810,000   | <a href="mailto:Sian.Smith@newham.ac.uk">Sian.Smith@newham.ac.uk</a>                   |
| 3 | Newham College of Further Education | ENTERPRISE STEPS        | The project will engage pre-trade and early stage SMEs in London in areas of low enterprise activity and amongst under-represented groups to create new enterprises and help existing enterprises survive, prosper and grow.   | £1,254,000 | £627,000   | <a href="mailto:Sian.Smith@newham.ac.uk">Sian.Smith@newham.ac.uk</a>                   |

|   |   |   |   |            |            |  |
|---|---|---|---|------------|------------|--|
| 3 | <b>SPACE (Art Services Grants Ltd)</b>  | <b>LONDON CREATIVE NETWORK</b>                | The project aims to increase the growth capacity of SMEs in the creative sector in London (visual arts, design, craft and photography) by developing their capacity to grow and increase their economic performance. An aim is to lower business failure rates and increase the employment potential of the sector.   | £2,000,000 | £1,000,000 | <a href="mailto:anna@spacestudios.org.uk">anna@spacestudios.org.uk</a>               |
| 3 | <b>London Waste and Recycling Board</b> | <b>ADVANCE LONDON</b>                         | The project supports the scale-up of existing circular economy businesses, or transitioning existing businesses, to more circular models. It offers business support, addressing the key market failures encountered by SMEs seeking to increase growth and deliver resource efficient outcomes. A business club forum provides a peer-to-peer network of support. The project supports companies to improve their productivity through resource efficiency, developing capacity and creating jobs. | £1,257,872 | £628,936   | <a href="mailto:katie.lindsay@advancelondon.org">katie.lindsay@advancelondon.org</a> |
| 3 | <b>Virgin Start Up Limited</b>          | <b>READY,STEADY,GROW WITH VIRGIN START UP</b> | The project develops growth potential in start-up businesses in London, particularly in areas with low levels of enterprise activity and amongst under-represented groups. It seeks to enhance the culture of entrepreneurship in London, create jobs and encourage business growth.  | £2,538,884 | £1,269,442 | <a href="mailto:ian.mason@virginstartup.org">ian.mason@virginstartup.org</a>         |

|   |   |  |   |            |            |  |
|---|---|--|---|------------|------------|--|
| 3 | <b>London Training and Employment Network</b> | <b>INSPIRING ENTERPRISE AND GROWTH</b>           | The project equips potential entrepreneurs and fledgling SME and social enterprises in London with skills and competences to become more enterprising, start up new businesses and to ensure their sustainability. It targets BAME and other under-represented groups (e.g. women, people with disability or health conditions) in geographically disadvantaged parts of London.                | £2,715,000 | £1,357,500 | <a href="mailto:Toyin@lten.org.uk">Toyin@lten.org.uk</a>                         |
| 3 | <b>Enterprise Enfield Agency</b>              | <b>INSPIRING WOMEN</b>                           | The project provides business mentoring support, managed work space to support women, including those from BAME backgrounds and disabled women, to overcome barriers for either starting a business or sustaining an early stage business, including social enterprises. The project aims to support the creation of sustainable business start-ups, leading to growth in jobs and the economy. | £1,001,748 | £500,874   | <a href="mailto:djohnson@enterprisenfield.org">djohnson@enterprisenfield.org</a> |
| 3 | <b>University of the Arts London</b>          | <b>FASHION &amp; TECHNOLOGY EMERGING FUTURES</b> | The project will promote collaborations between fashion and tech SMEs in London; to capitalise on the fashion and tech eco-system emerging in the capital, to drive growth through promoting cross sector collaboration and develop innovative products and services (e.g. new fashion and lifestyle product innovation, digital marketing and retail solutions, digital supply chain tools).   | £5,325,000 | £2,662,000 | <a href="mailto:k.smith@fashion.arts.ac.uk">k.smith@fashion.arts.ac.uk</a>       |

|   |                                    |                                 |  |            |            |  |
|---|------------------------------------|---------------------------------|--|------------|------------|--|
| 3 | <b>The Trampery Foundation Ltd</b> | <b>LEGACY FOR GROWTH</b>        | The project will give early stage and startup creative and technology companies incubation facilities, and support from mentoring experts and peers running enterprises at more advanced stages of development. The project will provide access to a new fabrication workshop and grow-on facilities. The project will accelerate business growth in the Hackney Wick community and seeks to build a talent pool of peer entrepreneurs which successful clients can join.  | £4,533,600 | £2,666,800 | <a href="mailto:elad@thetrampery.com">elad@thetrampery.com</a>             |
| 3 | <b>LB Lewisham</b>                 | <b>THE DEK GROWTH PROGRAMME</b> | The project will deliver a programme of business support to meet the needs of high-growth potential SMEs in creative/digital/business services/social enterprise sectors. Businesses across south-east and east London will benefit from academic expertise, leading to SME growth and job creation.   | £2,003,249 | £1,001,624 | <a href="mailto:Mac.Wenham@lewisham.gov.uk">Mac.Wenham@lewisham.gov.uk</a> |
| 4 | <b>Greater London Authority</b>    | <b>RE:FIT</b>                   | This non-domestic public buildings project comprises: end to end support for public sector organisations (PSOs) to enable retrofit projects to be identified and successfully implemented; and a framework of approved suppliers from which PSOs can appoint an organisation to deliver retrofit projects. The project will generate and accelerate retrofit activity, thereby achieving significant reductions in energy demand and carbon emissions, generating cost savings to the public sector and improving London's infrastructure. | £4,191,816 | £2,095,908 | <a href="mailto:Sylvia.Baron@london.gov.uk">Sylvia.Baron@london.gov.uk</a> |

|   |                              |  |  |            |            |  |
|---|------------------------------|--|--|------------|------------|--|
| 4 | Greater London Authority     | <b>BETTER FUTURES</b>                        | The project will provide managed co-working space and innovation support to improve the success rate and speed of new low-carbon enterprises in London seeking to achieve growth. It will bring technical and business expertise to help low-carbon enterprises to optimise prototypes for the market and develop their business for growth investment. It will deliver CO2 reductions and job growth.                                     | £1,647,044 | £823,522   | <a href="mailto:BetterFutures@london.gov.uk">BetterFutures@london.gov.uk</a> |
| 4 | Greater London Authority     | <b>DECENTRALISED ENERGY ENABLING PROJECT</b> | The project provides public sector intervention to help realise larger-scale decentralised energy (DE) projects in London that the market is failing to deliver. It will procure and direct technical, commercial, financial support to help SMEs bring into operation schemes that deliver significant CO2 reductions at market-competitive prices. The project will deliver capital investment, create jobs and reduce carbon emissions. | £3,500,000 | £1,750,000 | <a href="mailto:Alex.Hobley@london.gov.uk">Alex.Hobley@london.gov.uk</a>     |
| 4 | London South Bank University | <b>GREENTECH ACCESS TO INNOVATION</b>        | The project empowers SMEs to develop and commercialise innovative low carbon technologies rapidly and at low cost and low risk to the business. It does this by offering a combination of advanced equipment and testing facilities, specialised technical expertise and business skills and networking opportunities in the low carbon and tech sectors. It will reduce CO2 emissions and support SMEs to grow.                           | £1,285,520 | £642,760   | <a href="mailto:daisy.chatterton@lsbu.ac.uk">daisy.chatterton@lsbu.ac.uk</a> |
| 9 | Greater London Authority     | <b>ERDF TECHNICAL ASSISTANCE</b>             | The project will support the Greater London Authority (GLA) as an Intermediate Body for the ERDF 2014-20 programme. It will enable the European Programmes Management Unit (EPMU) at the GLA to implement and manage ERDF, on behalf of the Managing Authority, the  | £2,834,256 | £1,417,129 | <a href="mailto:Sian.Treen@london.gov.uk">Sian.Treen@london.gov.uk</a>       |
