The overriding aim of the Regeneration Unit is to deliver high-quality and targeted regeneration programmes with a range of partners to maximise cultural, economic, social and environmental benefits, leverage and impact.
London’s Growth Deal

The Mayor and LEAP will:

Support London’s local economies and communities through integrated projects

Invest in FE estate and equipment

Unlock housing sites for small builders and community-led housing groups

Deliver an air quality improvement project.

£140m

Allocated to the Local Enterprise Action Partnership (LEAP) to invest in the Capital’s regeneration projects
What is the Good Growth Fund?

The Mayor of London’s new regeneration programme from 2017-18 to 2020-21, delivered through the London Economic Action Partnership (LEAP).

Open to a broad range of public, private and third-sector partners

Offers a tiered range of funding and support, to suit different applicants and scales and types of projects which together can build a broad and balanced programme of exemplary regeneration activities.
Empowering People

Providing opportunities for everyone to take part in the economic and social life that London has to offer.

Building an equal city and more integrated communities by fostering active citizenship and collaboration at a neighbourhood level.
Making Better Places

Enabling an inclusive city of pleasant and healthy places, offering a mix of young and old, of housing tenures, commercial space, and access to high quality cultural, recreational and green space.
Growing Prosperity

Tackling barriers to businesses starting and scaling up.

Growing more businesses and social enterprises that contribute to their local areas and improving digital connectivity.

Finding new ways of boosting productivity, and broadening employment opportunities for London’s residents.
Actions: What we will fund

We want to fund a range of projects as part of the Good Growth Fund and hope applicants respond creatively to our suggestions with proposals that address the interrelated strategic themes outlined in the previous chapter.

- Develop Civic Infrastructure
- Back Small Business
- Secure and Create Workspace
- Drive Innovation
- Build Skills and Employability
- Deliver Community-led Regeneration
- Enhance Public Space
- Share Culture
Key principles

‘Hiding the wires’
Removing barriers
Curation
Always open

Inclusivity
Alignment
Triage and support
